**Re: Case #U-21534**

Michigan Public Service Commissioners,

I help lead Metro Wire & Cable Corp., a local business headquartered in Sterling Heights, Michigan. I'm writing to express my support for DTE's electric rate case. DTE has a 15-year commitment to put Michigan first by prioritizing spending with in-state businesses. This commitment creates jobs and helps hard-working companies like mine succeed.

Because of DTE's investment and mentoring, we're thriving. Although we have had a strong relationship with DTE dating back to the 1970's, our relationship is even stronger now due to the recent outreach efforts, diverse supplier events, and Michigan matchmaking events they have helped host.

DTE trusts us and our Michigan employees to consistently provide a good product at a competitive price. That trust gives us the strength and incentive to invest in the partnership. Just recently, we expanded our Michigan operations by doubling our current warehouse and distribution space to assist DTE and other Michigan based businesses with their electrical wire/cable needs.

DTE encourages us to pay it forward by doing business close to home and supporting our communities. Our employees are active community servants, routinely volunteering around the state, supporting local charitable causes including The Ronald McDonald House of Detroit, and beyond.

Thank you for considering how DTE's investments and support of Michigan businesses create a ripple effect that translates into greater prosperity in local communities.

Sincerely,

Nate Tallman  
Vice President
