**Re: Case #U-21534**

Dear Michigan Public Service Commissioners,

I run PROS Services Inc, a local business located in Roseville, MI. I'm writing to express my support for DTE's electric rate case. DTE has a 15-year commitment to put Michigan first by prioritizing spending with in-state businesses. This commitment creates jobs and helps hard-working companies like mine succeed.

Because of DTE's investment and mentoring, we're thriving. PROS services began working with DTE in 2002 due to DTE, as they routinely do, recognizing a small business, that had the talent to assist them with many of their environmental needs.

DTE trusts us and our Michigan employees to consistently provide a good product at a competitive price. That trust gives us the strength and incentive to invest in the partnership. When PROS Services started working with DTE, we had 15 people employed. As of today, we have over 65 people employed. We have purchased 2 buildings in Roseville and have purchased millions of dollars in equipment in support of DTE from Michigan companies.

DTE encourages us to pay it forward by doing business close to home and supporting our communities. We support many organizations such as the Teamsters Helping Hands program, the local YMCA, Second Chance at Life, The Heat & Warmth Fund, Women of DTE, American Cancer Society as well as many other charities.

Thank you for considering how DTE's investments and support of Michigan businesses create a ripple effect that translates into greater prosperity in local communities.

Sincerely,

Gerry Snyder  
Chief Operating Officer  
PROS Services, Inc.
