Re: Case #U-21534

Dear Michigan Public Service Commissioners,

I, Jessica Kaltz with GEN3 Solutions, a Woman Owned (WBENC) business located in Lapeer, Mi. am writing to express my support for DTE's electric rate case. DTE has a 15-year commitment to put Michigan first by prioritizing spending with in-state businesses. This commitment creates jobs and helps hard-working companies like mine succeed.

Because of DTE's investment and mentoring, things are going well for us. DTE's commitment to diverse suppliers is unmatched. Through the support of their diverse supplier's mentorship program my 2024 start-up company has begun to flourish.

DTE trusts us and our Michigan employees to consistently provide a great product at a competitive price. That trust gives us the strength and incentive to invest in the partnership. For a start-up business to be successful it requires strong business partners, DTE definitely fills that role for GEN3 Solutions. To date, all of our revenue has come from Michigan owned businesses and in turn all of the money we spend is being returned to Michigan's economy.

DTE encourages us to "pay it forward" by doing business close to home and supporting our communities. We are so excited to follow DTE's example, as we begin our campaign to "leave it better than we found it". We publicly thank DTE for all their hard work to make Michigan a better place to live.

Thank you for considering how DTE's investments and support of Michigan businesses creates a ripple effect that translates into greater prosperity in local communities.

Sincerely,

Jessica D. Kaltz

Jessica D. Kaltz
