**Re: Case #U-21534**

Dear Michigan Public Service Commissioners,

I run Allied Power Services Michigan, LLC, a local business located in Detroit Michigan. I'm writing to express my support for DTE's electric rate case. DTE has a 15-year commitment to put Michigan first by prioritizing spending with in-state businesses. This commitment creates jobs and helps hard-working companies like mine succeed.

Allied Power Services Michigan, LLC has been the Modification & Construction Alliance partner at the DTE Fermi 2 Power plant since 2020. Because of DTE's investment and mentoring, we're thriving. We have actively worked with our union partners to participate in DTE diverse supplier mentorship program.

DTE trusts us and our Michigan employees to consistently provide a good product at a competitive price. That trust gives us the strength and incentive to invest in the partnership. Allied Power Services Michigan, LLC has supported the last 2 refueling outages at Fermi and we have hired over 500 employees each outage. Our business has grown tremendously as a result of being a DTE supplier.

DTE encourages us to pay it forward by doing business close to home and supporting our communities. Allied Power recently sponsored the Michigan Roundtable for Diversity and Inclusion Annual Golf Classic presented by DTE.

Thank you for considering how DTE's investments and support of Michigan businesses create a ripple effect that translates into greater prosperity in local communities.

Sincerely,

Mike Little  
President  
Allied Power Services Michigan, LLC
