Re: Case #U-21534

Dear Michigan Public Service Commissioners,

Wesco Distribution, Inc. (“Wesco”) would like to express support for DTE’s electric rate case. DTE has a 15-year commitment to put Michigan first by prioritizing spending on in-state businesses. This commitment creates jobs and helps companies like Wesco succeed.

DTE places its trust in Wesco and our Michigan employees to consistently deliver quality products and services at competitive prices. Wesco's collaboration with DTE has created jobs throughout the DTE service area and supported personnel across the U.S., enhancing the reliability and resiliency of the electric grid, with benefits felt throughout Michigan.

Wesco also has collaborated with DTE on projects that support community initiatives. One notable example is Wesco's sponsorship of the BizTown Junior Achievement Program, which offers pre-teens an immersive experience in a community setting to explore career opportunities.

Wesco believes DTE must have the support of the Michigan Public Service Commission to continue investing in its infrastructure, including projects that will take multiple years to design and execute.

Thank you for considering how DTE’s investments and support of Michigan businesses create a ripple effect that translates into greater prosperity in local communities.

Sincerely,

David Rodak
Regional Vice President, Northeast Region
Wesco Distribution, Inc.
