Important Information

Account Information

The Infrastructure Recovery Mechanism (IRM) surcharge is being increased on this bill. The IRM recovers costs related to certain distribution system investments. The IRM surcharge is included in the Other Delivery Volumetric Surcharges. The IRM surcharge has increased from 0.0139 cents per kWh to 0.0941 cents per kWh.

Your bill this month reflects an update to the Energy Waste Reduction Surcharge (EWRS) recently approved by the Michigan Public Service Commission in Case No. U-21558. The EWRS is included in Other Delivery Volumetric Surcharges. The EWRS has increased from 0.2552 cents per kWh to 0.2699 cents per kWh.

The Power Supply Cost Recovery (PSCR) line item on your bill reflects a portion of the costs of the fuel and other sources DTE uses to produce and transport electricity. As of November 1, this portion of the PSCR has decreased from 1.127 cents per kWh to 0.250 cents per kWh to reflect decreased costs to purchase fuel and produce energy.

Your securitization charges of \$5.91 and the applicable taxes cannot be offset with Rider 18 Distribution Generation outflow credits, per Michigan Public Service Commission (MPSC) case number U-21569.

The Low Income Energy Assistance Fund (LIEAF) Factor is being decreased to \$0.87 per meter, effective with this bill. The Michigan Public Service Commission approves the LIEAF Factor annually. The money is collected from utilities across Michigan and is spent as provided in the Michigan Energy Assistance Act (2012 Public Act 615). In accordance with Public Act 95 of 2013, for residential customers the LIEAF Factor only applies to one meter per residence.

For the average Michigan residential customer, renewable energy is estimated to avoid \$3.08 per month of new coal-fired generation costs.

Average temperatures for this billing period were 11.36 degrees colder than last billing period. As a result your appliances may be working harder to make you feel more comfortable.
