

February 27, 2026

Ms. Lisa Felice
Executive Secretary
Michigan Public Service Commission
7109 West Saginaw Highway
Post Office Box 30221
Lansing, MI 48909

RE: Case No. U-20697 – In the matter of the application of Consumers Energy Company for Authority to increase its rates for the generation and distribution of electricity and for other relief.

Dear Ms. Felice:

Enclosed for electronic filing in the above-captioned case, please find **Consumers Energy Company's Line Clearing Program 2025 Report**.

This is a paperless filing and is therefore being filed only in PDF. I have included a Proof of Service showing electronic service upon the parties.

Sincerely,

Spencer A. Sattler
Phone: 517-474-6638
Email: spencer.sattler@cmsenergy.com

Case No. U-20697

CONSUMERS ENERGY COMPANY’S
LINE CLEARING PROGRAM
2025 REPORT

Background

In MPSC Case No. U-20697, the Michigan Public Service Commission (“MPSC” or the “Commission”) directed Consumers Energy Company (“Consumers Energy” or the “Company”) to file an annual report to detail the progress of the line clearing program toward attaining the then planned 7-year effective cycle and the performance of Low Voltage Distribution (“LVD”) circuits post-clearing. From the Case No. U-20697 Order on December 17, 2020:

Consumers Energy Company shall file an annual report in this docket no later than December 15, 2021, and meet periodically with the Commission Staff throughout the year, to evaluate the company’s progress toward its line-clearing goals, to refine program metrics, and to discuss future strategies.

Per the Case No. U-20697 Order this report covers program spending, miles completed, circuit performance, and workforce engaged in line clearing operations. The report is separated into four sections as described below:

1. Operating and Maintenance (“O&M”) Expense – O&M expense for the LVD and High Voltage Distribution (“HVD”) system are reported and broken down into the sub-program level.

2. Miles Complete – Completed miles for the LVD and HVD system are reported and broken down into the sub-program level. For the LVD system, full circuit miles completed within cycle and the miles of circuits out of cycle are reported by headquarters.

3. LVD Circuit Performance – Circuits cleared are reported including the average number of tree-caused outage incidents, customers interrupted, and customer outage minutes for the three years preceding the year cleared and post-clearing tree-caused outage incidents, customers interrupted, and customer outage minutes for the years following the year cleared. Total values are shown for each pre-clearing and post-clearing reliability performance metric grouped by circuit year last cleared (post-clearing metrics are presented in this report for circuits cleared in 2021, 2022, 2023, and 2024 but are not included for circuits cleared in 2025).

4. Workforce Engaged in Line Clearing – The report details the workforce engaged in line clearing operations by total line clearing contractor employees and Consumers Energy supervision and oversight employees.

Dated: February 27, 2026

Respectfully submitted,

CONSUMERS ENERGY COMPANY

Section 1 – O&M Expense for the Line Clearing Program

Historical and 2025 spending on the Company’s line clearing program is presented in Table 1 below. The Company has exceeded test year spending for line clearing above rate case approved levels in this timeframe. Current test-year spending is on target through the end of January 2026 financial month and is on track to meet the test year-end O&M spending target of \$125.087M as set by the Company’s last Electric Rate Case No. U-21585.

**Table 1 – Line Clearing O&M Expense 2020-2025
 (Dollars in Thousands)**

Distribution System	2020	2021	2022	2023	2024	U-21389	U-21585	
						3/1/2024- 2/28/2025	2025	3/1/2025- 2/28/2026
HVD System	\$9,170	\$10,739	\$10,987	\$11,301	\$10,729	\$9,974	\$9,673	\$9,526 ¹

Electric Total	\$55,274	\$86,567	\$102,003	\$109,093	\$110,225	\$119,189	\$135,176	\$133,775¹
Rate Case Approved Spend ²	\$53,000	\$84,000	\$93,959	\$100,030	N/A	\$118,900	N/A	\$125,087
Note ¹ - 11+1 projected test-year spend Note ² - 2019 from rate case U-18322, 3/29/2018, \$51.8M and U20134, 1/9/2019, \$53.0M - 2020 from rate case U-20134, 1/9/2019, \$53.0M - 2021 from rate case U-20697, 12/17/2020, \$84.0M - 2022 from rate case U-20963, 12/22/2021, \$93.959M - 2023 from rate case U-21224, 1/19/2023, \$100.03M - Test year 3/1/2024 through 2/28/2025 from rate case U-21389, 3/1/2024, \$118.89M - Test year 3/1/2025 through 2/28/2026 from rate case U-21585, 3/21/2025, \$125.09M								

Total 2025 contractor clearing expense for the LVD system for each of the Company’s headquarters is presented in Table 2 below. These figures do not include Company supervision and oversight expenses and do not include contractor expenses for the HVD system which are not tracked at the service center level. Company supervision and oversight expenses are presented as a single line item in the total section of the table.

Section 2 – Miles Completed

The historic and 2025 O&M miles completed by sub-program are presented in Table 3 below. 2021 was the first year of the ramp-up plan to attain a 7-year effective cycle.

Table 3 - Line Clearing O&M Miles Completed 2020-2025

Distribution System	2020	2021	2022	2023	2024	2025
HVD System	1,116	1,178	1,106	1,153	1,203	1,059
LVD System	4,211	5,279	6,388	6,365	6,030	6,790
Electric Total	5,326	6,457	7,494	7,518	7,233	7,849

Table 4 represents the miles of full LVD circuits cleared within their voltage cycle and the miles of LVD circuits last cleared beyond the voltage cycle for the seven-year effective cycle by each headquarters. Because a circuit's backlog or cycle status is determined by the year it was last fully cleared, the backlog miles include miles cleared under partial circuit clearing subprograms such as repetitive outage zonal clearing or capital clearing work.

Table 4 – LVD Full Circuit Clearing Miles by Headquarters

Table 7 outlines the methodology of measuring pre- and post-clearing reliability performance of individual circuits cleared. Reliability measurements include the number of tree-

caused outage incidents for the circuit, the number of impacted customers, and the number of customer minutes incurred by those incidents for all-weather conditions for all LVD areas of fault, including secondary and service outages.

Attachment 1 to 2025 Line Clearing Annual Report shows the three-year average historical performance of the circuits cleared in 2021, 2022, 2023, 2024, and 2025. Post-clearing data for circuits cleared in 2021, 2022, 2023, and 2024 is provided for the time period of January 1 through December 31 of the years following clearing, respectively. Post-clearing data for circuits cleared in 2025 will be shown in the 2026 Line Clearing Annual Report.

Table 7 - Methodology for Post Clearing Circuit Performance Analysis

2018	2019	2020	2021	2022	2023	2024	2025
Three Year Average Pre-Clearing Performance			Year of Clear	Post Clear Year 1	Post Clear Year 2	Post Clear Year 3	Post Clear Year 4
Three Year Average Pre-Clearing Performance				Year of Clear	Post Clear Year 1	Post Clear Year 2	Post Clear Year 3
Three Year Average Pre-Clearing Performance					Year of Clear	Post Clear Year 1	Post Clear Year 2
Three Year Average Pre-Clearing Performance						Year of Clear	Post Clear Year 1
Three Year Average Pre-Clearing Performance							Year of Clear

Section 4 – Workforce Engaged in Line Clearing Operations

At the beginning of 2025 the Company had employed 76 internal and contracted full-time equivalent (“FTE”) resources in the line clearing area for supervision and oversight responsibilities. During 2025, there was an increase of four (4) in-house FTEs for supervision and oversight due to increasing work volume. The total contractor workforce engaged at the crew level for line clearing operations at the beginning of 2025 was approximately 912 employees. Crews and additional contractors on the system performing line clearing work at the end of 2025 was 1,198 FTEs. The total FTEs engaged in all aspects of the line clearing program are presented below in Table 8.

Table 8 - FTEs Engaged in Line Clearing (2025)

Employee Type	FTEs
Line Clearing Contractor Employee	1,198
Contract Supervision and Oversight	36
In-House Supervision and Oversight	53
Total FTEs Engaged in Line Clearing	1,287
