MICHIGAN PUBLIC SERVICE  
COMMISSION

January 26, 2011

Ms. Mary Jo Kunkle  
Executive Secretary  
Michigan Public Service Commission  
P. O. Box 30221  
Lansing, MI 48909

**Re: Case No. U-12486**

Dear Ms. Kunkle:

This report is submitted in response to the Commission's Order of June 19, 2000, which requires owners or operators of each electric power generating facility in Michigan to file a report showing that it is in compliance with all federal Environmental Protection Agency (EPA) regulations governing mercury emissions, and how it determined that it is in compliance.

Renaissance Power, LLC is the owner of an electric power generating facility located at 950 North Division Street in Carson City (Montcalm County) Michigan. This facility is in compliance with federal EPA regulations governing mercury emissions because it's generating units combust pipeline-quality natural gas.

If you have any questions or require additional information, please feel free to contact me at 989-584-2333 or Dale Gray the LS Power General Manager at 636-532-2200

Sincerely,

Matt Kaleyta  
Plant manager  
Renaissance Power LLC
