RE: Case No. U-15899

TO: Members of Michigan Public Service Commission

We live and work in Oliver Township, Huron County, in the Harvest Wind Farm Energy Project. There are three wind turbines near our home. One is about 1250 feet away from our home and 2 others are about 1500-1700 ft. away from our home. We have not experienced any health issues; no problems sleeping, no noise issues having the wind turbines near our home. We enjoy our life in the rural community including our business here and have no difficulties with Harvest Wind Farm. Our township developed a workable and reasonable ordinance. We support local control on development of wind energy systems. We are pleased to have clean renewable energy produced in our area to supply our state of Michigan with needed energy.

Respectfully submitted,

Donna Ziel-Kretzschmer
