

further provides that “The commission may increase or decrease the contribution assessment on a quarterly or other basis as necessary to maintain sufficient funds for disbursements.”

MCL 484.2310(14).

In an order issued April 13, 2010, the Commission established the total size of the restructuring mechanism at \$18,057,034.86, and notified eligible providers of the disbursements for which they were eligible.

In an order dated May 17, 2010, the Commission calculated a 0.431% contribution factor, and stated that each contributing provider would be billed monthly for one-twelfth of that provider’s 2008 intrastate telecommunications services revenues, as reported in this docket, multiplied by the contribution factor.

In an order dated August 10, 2010 (August 10 order), the Commission addressed several issues on rehearing. Among other things, the August 10 order dealt with the appropriate period for review of the sufficiency of collections resulting from the calculated percentage. The Commission held:

The Commission directs the [Commission] Staff to continuously monitor the response to the system put in place by this order. Should it appear that the fund may become insufficient to cover the necessary payments, the Staff shall alert the Commission to the need for review. In the absence of an earlier review, the Commission finds that it should reexamine the method and amounts following a year of implementation.

August 10 order, p. 11.

In orders dated February 8, 2011, October 31, 2012, and December 19, 2013, the Commission adjusted the contribution factor to enable the restructuring mechanism to meet its obligations to make provider disbursements and pay administrative costs, and to ensure that a cash reserve equal to one month of disbursements was in place.

At this juncture, it has come to the Commission's attention that the restructuring mechanism is in need of adjustment. Due to contributions being lower than anticipated, the monthly disbursements are reducing the cash reserve. It is necessary to revise the contribution percentage to ensure the fund is able to meet its monthly obligations while maintaining an appropriate cash reserve. Given the amount of revenue subject to the contribution percentage (total intrastate retail telecommunications service revenue for all contributing providers) the Commission Staff (Staff) recommends that the contribution percentage be revised to 0.68% (.0068) in order to bring in enough money each month to provide for disbursements, administrative costs, and the required cash reserve in the fund. The Staff recommends that this new contribution percentage go into effect on November 14, 2014 (the day after the November contributions are due). Providers would then be subject to the adjusted contribution percentage beginning with the contributions due December 13, 2014.

The Commission finds that it should adopt the recommendations of the Staff, and directs the Staff to update the online form that providers use to determine their contribution amounts beginning November 14, 2014, to reflect the revised contribution rate. The new contribution factor shall be reflected first in the December 13, 2014 contribution.

THEREFORE, IT IS ORDERED that:

A. The restructuring mechanism contribution factor shall increase from 0.540% to 0.680% effective November 14, 2014.

B. On November 14, 2014, the Commission Staff shall update the online form used by contributing providers in calculating the monthly contribution to reflect the new percentage.

C. The Commission Staff shall continue to monitor the activity of the restructuring mechanism to ensure that the contribution percentage assessed is appropriate.

The Commission reserves jurisdiction and may issue further orders as necessary.

Any party desiring to appeal this order must do so by the filing of a claim of appeal in the Michigan Court of Appeals within 30 days of the issuance of this order, under MCL 484.2203(12).
