

STATE OF MICHIGAN  
BEFORE THE MICHIGAN PUBLIC SERVICE COMMISSION

\* \* \* \* \*

In the matter of the inquiry, on the Commission's	)	
own motion, into gas safety issues concerning	)	
certain gas distribution utilities, gas gathering or	)	Case No. U-17585
transmission pipeline operators, and gas storage	)	
system operators.	)	
_____	)	

At the October 7, 2015 meeting of the Michigan Public Service Commission in Lansing,  
Michigan.

PRESENT: Hon. John D. Quackenbush, Chairman  
Hon. Sally A. Talberg, Commissioner  
Hon. Norman J. Saari, Commissioner

**ORDER**

The Commission's Gas Safety Staff (Staff) has consulted with the federal Pipeline and Hazardous Materials Safety Administration about the existence of gas service lines connected directly to gas storage fields, transmission pipelines, regulated and unregulated gathering lines, oil and gas wells, and gas processing facilities that are serving residential or commercial gas consumers. According to the Staff, these connections often occur when the pipeline or storage field operator provides natural gas to a property owner in lieu of paying for a right-of-way across the property.

The Staff raises concerns that although the Gas Safety Standards, Mich Admin Code, R 460.20101 to R 460.20606 (MGSS), mandate that a transporter of gas (whether or not the transporter is a regulated utility) is responsible for the design, construction, testing, operation, and

maintenance of gas pipeline facilities used in the transportation of gas, the facilities described above may not be compliant with the MGSS.

Specifically, the Staff has concerns that in some cases: (1) the gas provided is not odorized; thus, a gas leak inside a home or other structure would be undetectable; (2) pressure regulators are not properly installed or maintained, potentially leading to failure and over pressurization of gas utilization equipment, which in turn could lead to damaged appliances and gas escaping into a home or other structure; (3) emergency valves are not present or are not operable, which could lead to a delayed shut down of the gas source in the event of an emergency; (4) if metallic lines are present and are not cathodically protected, these lines could corrode and cause leaks that could migrate into a building; (5) lines are not leak-surveyed; and (6) service lines cross roads or other properties leading to potential damage by third parties if these lines are not marked after a MISS DIG request.

### Discussion

The Natural Gas Pipeline Safety Act (NGPSA), 49 USC §60102, provides that the Secretary of the Department of Transportation shall establish minimum federal safety standards for the transportation of gas and for pipeline facilities. 49 USC §60105 provides that the Secretary's authority to prescribe and enforce gas pipeline safety standards shall not apply to intrastate pipeline transportation when a state agency regulates the safety standards and practices applicable to intrastate pipeline transportation and submits an annual certification to the Secretary meeting certain criteria. As discussed in more detail below, the Commission has adopted the applicable federal safety standards, and it has established the inspection, documentation, and enforcement programs required under the Act. The Commission's program was last certified on September 9,

2014. Therefore, pursuant to NGPSA, and the Secretary's certification, intrastate gas pipeline facilities are under the Commission's jurisdiction.

The Commission's authority to regulate gas safety of intrastate facilities is set forth in 1969 PA 165; MCL 483.151 *et seq.* (Act 165). Section 3 of, MCL 483.153 provides:

Any person who engages in the transportation of gas or who owns or operates a pipeline facility shall:

- (a) Comply with the requirements of any standard prescribed by the commission.
- (b) File and comply with a plan of inspection and maintenance as required by section 4.
- (c) Permit access to and copying of records, make reports and provide information and permit entry and inspection as required by sections 5 and 6.

"Transportation of gas" under Section 1(e) of Act 165 is defined as:

the gathering, transmission, or distribution of gas by pipeline or the storage of gas. Transportation of gas does not include the gathering of gas in rural locations that lie outside the limits of an incorporated or unincorporated city, town, village, or other designated residential or commercial area such as a subdivision, business or shopping center, community development, or similar populated area that the commission may define as a nonrural area. Transportation of gas includes gathering lines located in or occupying the property of schools, hospitals, churches, parks, or similar public places.

And, under Section 1(d) of Act 165 "pipeline facilities":

includes, but is not limited to, new and existing pipeline rights-of-way, and any equipment, facility, or building used in the transportation of gas or the treatment of gas during the course of transportation.

Because the facilities at issue in this inquiry are facilities "used in the transportation of gas" for the "distribution of gas by pipeline," these facilities are subject to Act 165 and the MGSS.<sup>1</sup>

To assess the scope of the problem, the Commission has opened this docket for the purpose of determining: (1) the number and locations of residences or other structures that are receiving gas

---

<sup>1</sup> Although the sources of supply for some of these facilities are non-jurisdictional (e.g., unregulated gathering lines or interstate pipelines), because the facilities that are the subject of this inquiry are distribution lines ("a pipeline other than a gathering or transmission line" 49 CFR 192.3), they are intrastate facilities subject to the MGSS.

under the same or similar circumstances as outlined above; (2) the specific type of interconnection and source of gas for each connection to a residence or other structure; and (3) the safety equipment (i.e., odorizers, regulators, valves) currently installed at each connection. *See*, Attachment 1. To that end, the Commission directs the Executive Secretary to send a copy of this order and Attachment 1 to the providers listed in Attachment 2.<sup>2</sup> In addition, the Executive Secretary is directed to publish the notice contained in Attachment 3 in the Michigan Oil & Gas News.

All providers shall respond to this request for information by December 1, 2015. Providers that do not have connections as described in the order shall respond with a letter so indicating. Responses shall be sent to: David Chislea, Manager, Gas Operations Section, Michigan Public Service Commission, 7109 W. Saginaw Hwy. Lansing, MI 48917. Responses may also be emailed to: [MPSC-operations@michigan.gov](mailto:MPSC-operations@michigan.gov).

THEREFORE, IT IS ORDERED that by December 1, 2015, all providers shall submit responses to the questions contained in the table in Attachment 1 to this order. Providers that do not have connections as described in the order shall respond by so indicating.

---

<sup>2</sup> Due to the size of Attachment 2, it is not physically attached to the order, but it is available in the electronic docket on the Commission's website.

The Commission reserves jurisdiction and may issue further orders as necessary.

MICHIGAN PUBLIC SERVICE COMMISSION

---

John D. Quackenbush, Chairman

---

Sally A. Talberg, Commissioner

---

Norman J. Saari, Commissioner

By its action of October 7, 2015.

**STATE OF MICHIGAN  
BEFORE THE MICHIGAN PUBLIC SERVICE COMMISSION**

**NOTICE OF INQUIRY  
INTO GAS SAFETY ISSUES CONCERNING CERTAIN GAS DISTRIBUTION  
UTILITIES, GAS GATHERING OR TRANSMISSION PIPELINE OPERATORS, AND GAS  
STORAGE SYSTEM OPERATORS  
CASE NO. U-17585**

- The Michigan Public Service Commission is conducting an inquiry into gas service lines that are connected directly to gas storage fields, transmission pipelines, regulated and unregulated gathering lines, oil and gas wells, and gas processing facilities that are serving gas consumers. These connections often occur when the pipeline or storage field operator provides natural gas to a property owner in exchange for paying for a right-of-way or easement across the property. In some cases: (1) the gas provided is not odorized; (2) pressure regulators are not properly installed or maintained, potentially leading to failure and over pressurization of gas utilization equipment, (3) emergency valves are not present or are not operable; (4) if metallic lines are present and are not cathodically protected, these lines could corrode and cause leaks that could migrate into a building; (5) lines are not leak-surveyed; and (6) service lines cross roads or other properties leading to potential damages by third parties if these lines are not marked after a MISS DIG request.
- To assess the scope of the problem, the Commission has opened this docket for the purpose of determining: (1) the number and locations of residences or other structures that are receiving gas under the same or similar circumstances as outlined above; (2) the specific type of interconnection and source of gas for each connection to a residence or other structure; and (3) the safety equipment (i.e., odorizers, regulators, valves) currently installed at each connection.
- In response to the Commission's inquiry, all operators shall provide the information contained in Exhibit A attached to the October 7, 2015 order in Case No. U-17585, available on the Commission's E-Docket Website at [michigan.gov/mpscedockets](http://michigan.gov/mpscedockets). You may also contact the Michigan Public Service Commission, P.O. Box 30221, Lansing, Michigan 48909, (800) 292-9555 for a free copy of the order and Exhibit.
- Responses to the Commission's inquiry are due by 5:00 p.m. December 1, 2015. Responses may be emailed to: [MPSC-operations@michigan.gov](mailto:MPSC-operations@michigan.gov). Or responses may be mailed to:

Michigan Public Service Commission  
David Chislea, Manager, Gas Operations Section  
7109 W. Saginaw Hwy.  
Lansing, Michigan 48917

- All responses shall reference Case No. U-17585.  
Jurisdiction is pursuant to sections 5 and 6 of 1969 PA 165, MCL 483.155 and 483.156.

October 7, 2015  
Lansing, Michigan

# P R O O F O F S E R V I C E

STATE OF MICHIGAN )

Case No. U-17585

County of Ingham )

Lisa Felice being duly sworn, deposes and says that on October 7, 2015 A.D. she electronically notified the attached list of this **Commission Order (Commission's Own Motion) via e-mail transmission and to the U.S. mailing addresses**, to the persons as shown on the attached service list (Listserv Distribution List).

---

Lisa Felice

Subscribed and sworn to before me  
this 7th day of October 2015
