

Your rates are out of control. I have a hard time every month trying to pay my bill, and I am conservative. **Kaye Methot**, Munising, MI

I am concerned about the increases that take the limited income of Social Security. Even when I don't use much energy, I am forced to pay a basic amount. The state is also charging too much with their fees. **Leslie Watson**, Gwinn, MI

I'm signing because I also am struggling to support out household as it is and is can't afford an increase let alone the bill as it is!!!! **Christina Vanderlinden**, Gladstone, MI

I can't afford those high prices. **Betty Ernest**, Ontonagon, MI

My bill went from 30.00 to 90.00 in one month!!!! Disgraceful!!!!!!!. **Sheila Henshaw**, Gwinn, MI

I can't afford the increase. **Alex Fetter**, Marquette, MI

I cannot afford, my family cannot afford this ABSURD rate hike. It's more than DOUBLE everyone else! WHY? GREED. It's sickening. There are people at KI Sawyer, who are GOOD, honest, hardworking people, and people who are retired or on fixed incomes. This will destory them, and WHY?????**Erin Hilliard**, Gwinn, MI

It is insane our price for electricity where I live & frankly all over Michigan the price for electricity is crazy high. I have a family of 4 & I am always always turning my lights of & watching how much electrity we use & I still get bills of over \$200. It's so hard to keep up on my bill that in the winter time I can't because of how high it is. **Kelly Storms**, Gwinn, MI

We are on a very low fixed income from Social Security Disability. We're struggling with thealready high bills as it is. A rate hike would really affect our budget. With 2 persons in the house our bills run around \$225 a month!! Only a t.v. and a night light on during the evening and its still that high!! Ridiculous!! **Cynthia Pyhtila**, South Range, MI

We shouldn't have to pay double for the same service other companies deliver. **Vicky Myhren**, Calumet, MI

Our bills are so outrageous we will not be able to keep our home and retire here!!!! **Linda Thomas**, Cornell, MI

Ridiculous the monthly UPPCO bills. **Cindy Harris**, Iron River, MI

Cheaper electricity would be beneficial to our local economy. **Trevor Kyllonen**, Calumet, MI

Tired of ridiculous rates, twice what I paid elsewhere. **John de Nugent**, Apollo, PA

I'm signing because it is outrageous that these U.P. folks have to pay such outlandish rates!
Nancy Mahrley, Brighton, MI

This rate hike is ridiculous this company already charges way more than what is necessary. When living on city power I paid less than half of my power bill. There is no way to afford such an expensive how and for what. So UPPCO ceos can line their greedy pockets with more money? **Martin Edwards**, Rapid River, MI

I am a single mother of two children, no help from anyone, I'm low income and I work part time cuz I'm going to school. The rate change is ridiculous and I can't afford that!! **tiffany murray**, Escanaba, MI

Cheaper electricity will help our economy. **Damon Palovaara**, Calumet, MI

Rates are out of control. **Mike Sirtola**, Ishpeming, MI

No reason for it to go up. **Rich Greet**, Ishpeming, MI

We need these rates lower... Myself and a lot of other families are low income and are on a tight fixed income and already have a hard enough time trying to pay these outrageous rates... So that we are not shut off and so are children have heat and electricity... And there is so many elderly ppl in are Community that are also on a fixed income that are struggling to pay their bills. This is ridiculous the rates should be lowered NOT RAISED. **Phyllis Richmond**, Gladstone, MI

Rates are unmanageable. **Ashley McCracken**, Ishpeming, MI

My electric bill is insanelly high. **Jamie Raisanen**, Champion, MI

I'm on a single income and already have a really hard time making ends meet. Not even sure if I'll be able to afford to get my children anything for Christmas. **Jennifer Thompson**, Gwinn, MI

Power bills too high my whole house is electric. **clare tasson**, Republic, MI

Rates are ridiculous compared to other places in the U.P. **William hammond**, gwinn, MI

I have a family of five. My girlfriend and myself and three kids one of them a new born. One month or bill is less then \$100 and then next month goes up big time. We are low income. How are we supposed to enjoy life and take our kids to places if each and other month our bill is different. **Jeff McConnell**, Gwinn, MI

Our bill s are getting out of control. **jenny hendrickson**, Republic, MI

I'm signing because my husband and I are on a fixed income and can't understand why UPPCO electrical rates are so high compared to other electric companies. **Linda Pomeroy**, Gwinn, MI

No one can afford this already! We have power plants and enough water to make power. Time to go solar! **Michael Mansell**, Ontonagon, MI

The obscene electric charges here. **Robert Tapio**, Republic, MI

So they dont raise the prices more. **Tammy Bess**, Gwinn, MI

I now live on KI Sawyer and my house in Wisconsin was twice the size and more consumption and I paid half of what I do here in the U.P to uppco. Due to Uppco switching Billing systems in January I was "accidentally" taken off the budget plan and STILL paying for it. Family of 5, Im disabled and paying 600 a month to make up for uppco's mistake..... Smh. **Katie Thibeau**, Fond du Lac, WI

Rates are way to high **Jenny Schwark**, Gwinn, MI

I own a business with 7 building the the rates are ridiculous, cannot attract new businesses with electric rates like these. **Julie Sprenger**, Calumet, MI

I'm signing because the rates are outrageous and we shouldn't have to pay these high rates just because they are a monopoly. Most people living in the U.P. don't make much money in the first place. **Rene' Brindley**, Gwinn, MI

I have a family to support. **April Clark**, Lansing, MI

Bills are OUTRAGEOUS. **Amanda Kauppinen**, Calumet, MI

The poorly constructed web site is your fault and has caused me time and frustration. You don't read the meters regularly and that causes my bill to fluctuate monthly. All you have to do is drive by and scan the meter. **Jack Mathews**, Republic, MI

UPPCO is driving jobs out of the UP with their insane energy prices. **Anthony Heathcoat**, Houghton, MI

Public Comments Two Weeks Ago from [Change.org](#)

U-17895

(9/19/16)

Rates are ridiculously high!!! **Mary French**, Bark River, MI

bills are way too high! **ellen saunders**, Dollar Bay, MI

I feel the rates are too high and a rate increase is ridiculous. **Therese Grahek**, Nisula, MI

My family n friends all live in escanaba and this is outrageous! **Mark Johnson**, Green Bay, WI

I hate UPPCO! Simple. As. That. **Lori Chenier**, Escanaba, MI

My electric bill is ridiculously high compared to other electric companies! **Michelle Tryan**, Escanaba, MI

Ontonagon county has been stripped of 75% the jobs in the area due to the copper mine shut down and the dismantled paper mill. These people are barely surviving and additional costs for electricity/heat could cause more people to lose their homes and possibly not afford their much needed medications.

Laurie Store, Howard, WI

Do something to keep jobs here **Mike Laukka**, Mass City, MI

There is no reason UPPCO should have the second highest rates in the country. There are power plants right here in the UP of MI. **Roger Rantala**, Ontonagon, MI

The bills are ridiculous ly high for never being home **tanya roznik**, calumet, MI

I'm signing this because I can't afford my power bill now!! And you want to up it more!! Really!! I have a family to feed too. **Jessica Fontaine**, Calumet, MI

I oppose an increased electric rate. We have the highest electric rates in the US other than Hawaii. Ridiculous! **Stacey Flood**, Calumet, MI

The rates were already high enough for this area, raising rhem is going to drown us all!!! **Ariel Miron**, South Range, MI

How are we suppose to live? **Celia Lindquist**, ishpeming, MI

my electic is already high enough!! can't afford for it to go up again **allison longenecker**, South Range, MI

Electrical rates are price gouging people badly. **Nathan Quattrin**, Munising, MI

We try our hardest to reduce wasting electricity, yet our electric bill is obscene. Appliances & lights are turned off when not in use; most of our bulbs have been switched to CFL & LED versions; our appliances are all energy-saving; we have no A/C nor window fans; our heat, stove & hot water are natural gas; and yet our monthly bill nearly always exceeds \$100. We are asked to pay too much as it is... how can UPPCO seek to further increase their rate? **John Michna**, Ontonagon, MI

I pay way too much for my electricity! **Michael Lasanen**, Calumet, MI

It too costly!!! **Judith Ruitsala**, Hancock, MI

what another raise, you got to be kidding, we are on a fixed income, and have enough problems making the bills, we went to all LED lights hoping to drop our rates..... it is 1/2 more above our gas bills, that doesn't make any sense at all.....Jeannine and Dick Fromm **carr John**, Munising, MI

I am signing because I feel that we are getting screwed by UPPCO just like the "Anointed One" said "he" was going to screw us. This is pure B.S. I had to call UPPCO on two different occasions just to get the bills for June and July. Said they had a computer glitch. Sure they did! They were probably afraid to show the rate increases. A 10% higher rate than the rest of the state is hard to swallow. Especially now since we are retired. Thanks UPPCO, it shows us how much you guys really care!! **Robert St.Amour**, Ishpeming, MI

my bill has double what I use to pay **Debra Clark**, Escanaba, MI

Uppco is the highest utility bill that I have. I can't afford any more-this is ridiculous. **Elizabeth Nora**, Ishpeming, MI

I CURRENTLY PAY \$433.00 PER MONTH FOR UPPCO FOR A 910 SQUARE FOOT HOUSE HOLD ON THE BUDGET BILL. I AM 100% WOOD HEAT. **CHANDRA PORTER**, Eben Junction, MI

Our electricity rates are absolutely insane. We are both on a fixed income (retired) and pay such high electric rates compared to when we lived in Milwaukee, Wi. Why in the world would there be such a drastic difference? We have honestly considered moving from Upper Michigan because of the high electric rates. Something must be done about this! **Judith & Nick Evert**, Chassell, MI

Electric rates way too high compared to anyone else in the upper peninsula and beyond **Carrie Boudreau**, Gladstone, MI

I believe UPPCO has corrupted our way of life with continuously raising prices for a service that they have monopolized in Upper Michigan. We pay the 22nd highest for power in our ENTIRE country. They say it's because of the UP being wooded and not densely populated BUT Alaska is wooded and not densely populated yet pay a lot less than we do. Their practices are simply getting out of hand! **Jennifer Cooper**, Atlantic Mine, MI

I'm signing because we should not only have the one company but we should have another option. Also cause the cost of power is ridiculous around here. **Daniel Basto**, Calumet, MI

Outrageous rates!!! Nichole Racine, Lake Linden, MI It is only my husband and I and i paid way less in Florida when i had the 3 kids at home then I do here **virginia kezele**, Ahmeek, MI

Our light bill is outrageous. We paid more this last month then we did in December with our Christmas lights on. We do need another utility company here. We are retired and live on a fixed income. Can't afford another rate hike. **debbie clairmont**, Escanaba, MI

Because im tired of having to choose between going to the grocery store, or paying my RIDICOUSLY HIGH power bill...!! And i am getting by on the bare minimum as far as power usage goes....Any less and i will have to unplug my refrigerator..! **Pat Beyers**, Hubbell, MI

Electricity rates on Caspian, Michigan shouldn't be more than a rent or mortgage payment. Especially if we can choose our company - like WE Energies. **Nicole Thurston**, Caspian, MI

UPPCO.'s rates are egregiously high. Please, a month summer bill in excess of \$500?? I do not have ANY heavy pull items!! An increase in the last two years of over 100%?? **George Netchey**, Gladstone, MI

I'm on a fixed income, and the excuse of a sparsely populated wooded area has never been an issue for higher rates in the past, its corporate greed! **Douglas Anderson**, Gwinn, MI

I am low income and a senior. It is very scary when the electric bill comes. I don't often times know how to pay for it. **Anneliese Retzler**, Germfask, MI

rates are too high already! **Greg Piper**, Hancock, MI

I live in a trailer with my son we are hardly home and my electric bill runs 200 a month. Being a single parent and all not to mention the economy and wages in my area don't reflect this ever increasing utility . I'm looking into moving to Wisconsin far less to live there then here in the UP it seems. **Zelina Huhta**, Baraga, MI

The past 4 months (or more) of bills I've received (at multiple residential and commercial locations) have all been speculative and entirely, consistently inaccurate. This failure at basic accounting and billing 101 hardly qualifies UPPCO to seek ANY sort of rate increase whatsoever. They need to figure the basics out first. All of that is on top of the EXTREMELY OBVIOUS high (enough) rates currently charged to customers. Nobody should even need to explain that...**Tom Dolaskie**, Munising, MI

We are a family of 5(2 adults, 3 young kids) who are barely scraping by as it is. We can NOT afford the electric rates we r currently paying, let alone all of our other bills. The cost of electricity is negatively affecting us in so many ways! For instance, we weren't able to get new school clothes for our children

because if we had, we would no longer have electricity. It's absolutely ridiculous and a complete monopoly as we have no other choice for electricity. It disgusts me how they can screw people like us, who have children to care for, who are trying their best to be productive members of society, and who have low income to work with as it is. **Cassandra Gerhart**, Copper City, MI

These rates they charge are just horrible.... I wish we had different companies to deal with. **Jamie Harter**, Lake Linden, MI

Because I need to be proactive and not just sit back and complain. Our electric rates from UPPCO are the highest in the UP and there is no reason for that other than greed. Got my last bill and it was 8x the previous one and I was not home for most of that period. Now UPPCO wants to up their rates. I do not believe they should be allowed to and I also think they should be investigated because of their current rates. Please do not approve their rate request. **Patricia A Cornish-Hall**, Munising, MI

Rates are ridiculous and they need to be reduced! **Nicole Kempainen**, Atlantic Mine, MI

I own a home in the U.P. **cindy dittman**, Milwaukee, WI

My electric bills are ridiculous **Sarah Latvala**, Escanaba, MI

This is totally criminal what is happening to residents in the Upper Peninsula by UPPCO. **Barbara A Reiter**, Gulliver, MI

We've been struggling for years trying to pay the present rate. We are living on a fixed income. This is just wrong. **Bonnie Maki**, Eben Junction, MI

I can not afford these high rates and get behind on my bill, constant struggle to pay ! I get bills as high as 295 a month then have to make payment arrangements only to pay that amount plus the bill owed for the month ! I work hard and this is discouraging when you can only pay so much with the high bills ! I even call to do a budget plan and it would only save me by 2 dollars???? I told them well that's not going to do any good!!! Can't keep up with such high rates!!! **Christine Hayman**, Iron River, MI

My power bill is way too high. **Kathy Ceno**, Calumet, MI

We pay so much for being home so little my fiancé and I both have full time jobs and the bill is outrageous! **Doug Pratt**, Rapid River, MI

My boyfriend and I both have "good" jobs and we fall more behind every month because our rates are way too high! In the seven years I have owned my home, I have become way more conservative on my electrical usage, including purchasing appliances and electronics that are energy saving, yet my monthly bill has tripled over these short seven years. It is scary that UPPCO holds a monopoly for our power, and yet we cannot realistically survive without the minimal use of power we use. Even with a "payment plan" with UPPCO, it is near impossible to pay off the outstanding bill while still paying for other necessary utilities such as water, gas, etc. Be good to your customers and they will be good to you!!!
Jessica Maki, Chatham, MI

Winter heating for practically most of KI Sawyer residence is astronomically unfeasible. Poor insulation in rental units causes heat to escape. **Celia Grondin**, Gwinn, MI

I get screwed over by UPPCO. **Derek Hawkins**, Ontonagon, MI

My electric bills are ridiculous!!! **Ranae Zellar**, Escanaba, MI

Can't afford my bills! **Amy Mattson, Toivola**, MI

We are tired of being charged more than a house payment for our electricity. We stress about how long lights are on, how long showers are (we cannot even get ahead long enough to get a gas water heater and stove) This is not living, just surviving... And barely doing that with these rates. **Laura Shambaugh**, Chatham, MI

Enough is enough!! I paid far less in Georgia running AC for a 3k sq ft home and running a pool filter 9 months a year than I do here sitting in the dark trying to conserve! **Daniel Ruzgis**, Kathleen, GA

The rates are ridiculous! **Sheri Tyner (McLaury)**, Skandia, MI

I can't afford to pay higher prices **Carol Pietila**, Laurium, MI

I think our rates are too high as it is. **Amy Alderton**, Ishpeming, MI

I'm signing this, because it's horrible what you are doing to us. **Angela gauthier**, Chatham, MI

our electric bill is by far the highest of our utility bills. **Amy Chamberlain**, Gladstone, MI

Uppco is terrible. **Jordan Wettberg**, Ontonagon, MI

Rates are more than most of USA! **Bernard Vincent**, Bark River, MI

I'm sick of being ripped off. **Christopher Schultz**, Ontonagon, MI

I'm tired of being fleeced by our utility providers. Donald North, Gwinn, MI

Uppco is already extremely expensive. With no alternatives, they cannot be allowed to exploit their monopoly. **Joel Sanford**, Houghton, MI

The rates are already too high. **Lucas Harrison**, Rapid River, MI

Our Uppco rates are way too high!!! **Rhonda Papple**, Germfask, MI

My monthly electric bill is out of control compared to people a mile away with different providers. **Keith frusti**, Skandia, MI

Uppco has no right to charge so much!! I keep seeing rate increases and this fee or that fee added to my bill and it needs to stop . 20 miles from my house they are paying about .10 cents cheaper than me . Uppco is going to force people out of their homes because they will have to make a choice of paying rent/ mortgage or the power bill. Small businesses are going to end up having to shut their doors permanently because Uppco is eating away the profit . **Chad Robillard**, Ishpeming, MI

We live on a fixed income. There is no room left in the budget for higher electric rates. Please reconsider how this is going to affect seniors and others on fixed incomes. **Joleen North**, Gwinn, MI

These rates for Upper Michigan UPPCO customers are unfair and unjustifiable, especially considering the competition nearby. **Harry Isaksson**, Linthicum Heights, MD

What the hell is wrong with the Michigan state government? It's not enough to poison the poor in Flint - poor people have to freeze to death in the winter as well? **Kathryn Hildebrandt**, Oakland, CA

I have friends in the Upper Peninsula that are affected by this. **Justin Campbell**, Superior, WI

I am signing because UPPCO has to be stopped!! I bought all new, energy efficient appliances for my elderly parents because UPPCO said that was why the bills were outrageous. WELL NOTHING CHANGED!! We will be starting petition after petition and protest after protest until the horrible treatment and high energy rates by UPPCO are STOPPED!! **Tracy Koeller**, Madison, WI

I can't afford to pay any higher light bills since we are now on a fixed income **Cherie Vizeau**, Bark River, MI

I believe UPPCO is almost getting unaffordable with no other option for people with lower incomes. They have to cut back on other items sometimes to get by. **Stephen DeBakker**, Ishpeming, MI

Shite is just too much \$\$\$. Utilities need to be less so kids' parents can afford organic food, the only way out of this epidemic of imbalanced health fixed with gamma bandaids that don't solve the root problems, like dragging feet on switching to more sustainable ways of harnessing energy. Jesus Christ, the sun, it's free! **Jill Kesti**, Charlotte, MI

we need some competition. UPPCO rates are outrageous and should get another rate hike. **Sharon Bocklund**, Ishpeming, MI

Ruth scott . **Ruth Scott**, Baraga, MI

I'm signing because my husband and I find it EXTREMELY DIFFICULT to wear our Winter coats---INSIDE--- on cold Winter days because we literally cannot afford UPPCO'S outrageous rates. They are PRICE GOUGING 100% **Rosella Koeller**, Gladstone, MI

My electric bill has more than doubled from the same time period as last year and we are doing nothing different. And this is before the supposed rate increase. Please respond. I can show you the bills from last year and this. **Rosemary Taylor**, Ontonagon, MI

I live on a very fixed income. When my bill is too high it takes money away from my other necessities. We can NOT afford any more rate increases!!!! **Stacie Cousineau**, Gladstone, MI

Our electric rates are so high, when down the road 1 mile the bill is half. We are getting screwed Barry Peters, **Germfask**, MI

Rate outrages ! dan **Alexander sr**, Baraga, MI

Our bills have been over \$200.00 per month for years and even though we got rid of electric dryer and do a lot of energy saving things the bills just don't go down. Way too high now and we could use rates equal to other parts of the state. **Susan Carlson**, Escanaba, MI

It's getting so that the middle class person is having difficulty paying their monthly bill.. I feel very sorry for the people who are having difficulty paying their rent let alone utilities **kathy lehtikangas**, Wells, MI

People work too hard to be paying these kind of rates!!! It'd be different if we had other options to choose from, but we don't! It's ridiculous I paid almost \$1000 for the month of July!!!! Cecelia Keenan, **Bark River**, MI

the rates are too HIGH...and the billing system is insane....and my husband & I are both retired and on fixed incomes....it takes a HUGE chunk out of our monthly expenses and we are very conservative in our usage! **Susan Krupla**, Germfask, MI

This company is draining the poor **Daniel Duefrene**, Hancock, MI

We're barely surviving already. Our communities deserve better. Karrie Hilts, Atlantic Mine, MI

High rates and unpredictable service. **Heather Perron**, Chatham, MI

I have a mortgage already I don't need a second **Eric Jarvi**, Hancock, MI

I am currently a customer of UP Power and the rates are extremely exhorbitant!!! **Dona Hansen**, Gwinn, MI

Because we are moving and may be in the area of outrageous power prices and I also see my parents barely making ends meet with having to pay their power bill to upppo...**Gavin Kwarciany**, Negaunee, MI

I'm signing because my electric bill hasn't been paid in full in a long time. I can only afford to pay a partial amount. If the bills were actual reads every month, it would be OK. My actual bills are \$84-\$116 monthly. But they estimate every other month, and my bills are over three times higher. \$274-\$320. The best part, is the months that they think are higher, I was home half as much! They say you can read your own meter and they will send you cards to fill out. But 4 calls in, I still haven't received any cards. Getting to talk to a human, is like pulling teeth from a crocodile. When you finally talk to a human, they pass you around to different departments, and then you get stuck on the automated system again.

I'm signing this because I'm tired of being screwed. **Meaghan Andrews**, Germfask, MI

A price hike? For what?? The rates are already outrageous. Jason Newman, Calumet, MI

Uppco rates are ridiculous!!! **Kris Hough**, Marquette, MI

I'm signing because the rates are high enough and they don't fix or maintain the lines near my house, why should I pay more for the poor service I am all ready getting with no improvement made are the last three rate increases. **William Ellerbruch**, Negaunee, MI

Someone has to regulate these uncalled for increases Kim Hill, Eben Junction, MI

Electric service is too high! **Deborah Arens**, Hancock, MI

I am signing because Uppco is already so expensive for their electricity. People struggle now. Than they hit you with massive bills because they estimate cheap. They should not estimate and should not hike our prices again. We will have to go to generators, it would be cheaper to buy them and the gas. Sabrina **Reiley, L'Anse**, MI

There is no reason to increase this it's called a budget not seeing how far you can push it decrease NOT increase thank you I support this petition all the way 100% Nicole Rantanen, Mount Pleasant, MI

rates are too high **larry maronen**, Calumet, MI

My family is rarely home during the day. We use power for a few hours at night and we owe over \$700. This is not right. **Lisa Sargent**, Gwinn, MI

Our electric bill was \$520.00 for ONE month! **Tanya Nordstrom**, Iron River, MI

\$157.00 budget pay is 4 times what I paid monthly in North Carolina. Lower the costs, please, I may have to move if it goes higher. It is higher than my car insurance rate and that is ridiculous! **Michael Reed**, Ontonagon, MI

I am paying outrageous rates to UPPCO **William Nord**, Au Train, MI

My bill is crazy high, especially the last few months. **Daniel Shelafoe**, Gwinn, MI

I am on fixed income, having trouble paying bills, insurance keeps going up, can't afford higher utilities
Mary Cassidy, Houghton, MI

I'm signing because my electric bill angers me! It is out of control high! **Gina Boney**, Bark River, MI

I Think the Public Service Commission is corrupt and could be accepting favors like dinners, trips, golf outings and other gratuities to support the public utilities they are supposed to be regulating. **Sandra Engel**, Chassell, MI

My monthly electric bill is jumping up drastically. (\$199/month). It seems unreasonable that a 2 person household would use enough power to merit this kind of rate. Since we have no choice to select a provider, we should not be continually victimized by a sole provider. **Judy Summers**, Iron River, MI

I'm tired of seeing good people getting robbed by greedy companies. **Edward Crim**, Menominee, MI

My family & friends in the UP deserve affordable electricity! Holly Seppala, Duluth, MN

My bill has tripled in KW charges moving from our town 2 miles into UPPCO area.... From approximately \$100 a month to \$300 a month! **Ron Young**, Escanaba, MI

Why should we pay more. Greedy business **Scott Snell**, Champion, MI

UPPCOS bills are insanely high! **Nicole Shelafoe**, Gwinn, MI

I used to deal with the upcco monopoly. The proposed rate increase seems unnecessary. My power rates downstate are fair because there's competition. **Laura Edwards**, Wayland, MI

Rates are excessive. Get charged way to much for an estimated bill. **Douglas McIntosh**, Dollar Bay, MI

Outrageous bills! **Carrie Lienitz**, Eben Junction, MI

I am an UPPCO customer. **Kristianna Harris Pfaffle**, Marquette, MI

I pay double or triple for electric what I pay for my other utilities, this is insane and it goes up several times a year. **Jason Zupancic**, Iron River, MI

well just look at the comparison to other UP power suppliers. **LORI EBSCH**, Bark River, MI

My bill is getting more and more outrageous each month even when we aren't using as much electricity. Pretty soon we will not be able to keep up with it. **jessica crooks**, Tampa, FL

I can barely afford the rate now and we use very minimal power and aren't even home for it to be this high! Moved to the u.p. last year and electricity here is literally QUADRUPLE what I was paying in Ohio and in Ohio we had A/C running nonstop, multiple TVs, etc. **Shianne Myers**, Houghton, MI
