In the matter, on the Commission's own motion,)	
to implement 2009 PA 182, MCL 484.2310.)	Case No. U-16183
_____)	

At the February 20, 2020 meeting of the Michigan Public Service Commission in Lansing, Michigan.

PRESENT: Hon. Sally A. Talberg, Chairman
Hon. Daniel C. Scripps, Commissioner
Hon. Tremaine L. Phillips, Commissioner

ORDER

The Commission commenced this proceeding on January 11, 2010, in order to implement the provisions of 2009 PA 182 (Act 182), which amended MCL 484.2310 of the Michigan Telecommunications Act, 1991 PA 179, MCL 484.2101 *et seq.* The amendment reformed toll access service rates in Michigan.

As noted in previous orders, Act 182 requires that the Commission administer a fund known as the intrastate switched toll access rate restructuring mechanism (restructuring mechanism). MCL 484.2310(9), 484.2310(23)(e). The restructuring mechanism is to be funded via "a mandatory monthly contribution by all providers of retail intrastate telecommunications services and all providers of commercial mobile service." MCL 484.2310(12). The Act further provides that "[t]he commission may increase or decrease the contribution assessment on a quarterly or other basis as necessary to maintain sufficient funds for disbursements." MCL 484.2310(14).

In an order issued April 13, 2010, the Commission established the total size of the restructuring mechanism at \$18,057,034.86, and notified eligible providers of the disbursements for which they were eligible. On February 22, 2018, the fund size was reduced to \$9,987,468.39 pursuant to the recalculation as directed in Act 182, as amended by 2014 PA 52. Since the fund was established in 2010, several orders have addressed the size of the contribution assessment.

In an order dated May 17, 2010, the Commission calculated a 0.431% contribution factor, and stated that each contributing provider would be billed monthly for one-twelfth of that provider's 2008 intrastate telecommunications services revenues, as reported in this docket, multiplied by the contribution factor.

In an order dated August 10, 2010 (August 10 order), the Commission addressed several issues on rehearing. Among other things, the August 10 order dealt with the appropriate period for review of the sufficiency of collections resulting from the calculated percentage. The Commission held:

The Commission directs the [Commission] Staff to continuously monitor the response to the system put in place by this order. Should it appear that the fund may become insufficient to cover the necessary payments, the Staff shall alert the Commission to the need for review. In the absence of an earlier review, the Commission finds that it should reexamine the method and amounts following a year of implementation.

August 10 order, p. 11.

In orders dated February 8, 2011, October 31, 2012, December 19, 2013, September 26, 2014, November 5, 2015, February 11, 2016, and February 22, 2018, the Commission adjusted the contribution factor to enable the restructuring mechanism to meet its obligations to make provider disbursements and pay administrative costs, and to ensure that a cash reserve equal to one month of disbursements was in place. Over time, the contribution factor has fluctuated from a low of

0.32% to a high of 0.98%, with the current contribution factor of 0.51% set in the February 22, 2018 order.

At this juncture, it has come to the Commission's attention that the restructuring mechanism is in need of adjustment. Because contributions are lower than anticipated, it is necessary to revise the contribution percentage to ensure the fund is able to meet its monthly obligations while maintaining an appropriate cash reserve. Given the amount of revenue subject to the contribution percentage (total intrastate retail telecommunications service revenue for all contributing providers), the Commission Staff (Staff) recommends that the contribution percentage be revised to 0.78% (.0078) in order to bring in enough money each month to provide for disbursements, administrative costs, and the required cash reserve in the fund. The Staff recommends that this new contribution percentage go into effect on April 14, 2020 (the day after the April contributions are due). Providers would then be subject to the adjusted contribution percentage beginning with the contributions due May 13, 2020.

The Commission finds that it should adopt the recommendations of the Staff, and directs the Staff to update the online form that providers use to determine their contribution amounts beginning April 14, 2020, to reflect the revised contribution rate. The new contribution factor shall be reflected first in the May 13, 2020 contribution.

THEREFORE, IT IS ORDERED that:

A. The restructuring mechanism contribution factor shall increase from 0.51% to 0.78% effective April 14, 2020.

B. On April 14, 2020, the Commission Staff shall update the online form used by contributing providers in calculating the monthly contribution to reflect the new percentage.

C. The Commission Staff shall continue to monitor the activity of the restructuring mechanism to ensure that the contribution percentage assessed is appropriate.

The Commission reserves jurisdiction and may issue further orders as necessary.

Any party desiring to appeal this order must do so in the appropriate court within 30 days after issuance and notice of this order, pursuant to MCL 484.2203(12). To comply with the Michigan Rules of Court's requirement to notify the Commission of an appeal, appellants shall send required notices to both the Commission's Executive Secretary and to the Commission's Legal Counsel. Electronic notifications should be sent to the Executive Secretary at mpscedockets@michigan.gov and to the Michigan Department of the Attorney General - Public Service Division at pungpl@michigan.gov. In lieu of electronic submissions, paper copies of such notifications may be sent to the Executive Secretary and the Attorney General - Public Service Division at 7109 W. Saginaw Hwy., Lansing, MI 48917.
