**RE: In the matter, on the Commission's own motion, to review its response to the novel coronavirus (COVID-19) pandemic, including the statewide state of emergency, and to provide guidance and direction to energy and telecommunications providers and other stakeholders.**

Dear Ms. Felice:

Enclosed for electronic filing in the above-captioned proceeding, please find **Consumers Energy Company's June 4, 2020 Report on disconnected service to occupied and unoccupied residences**. This Report updates the May 28 report to provide arrearage data.

This is a paperless filing and is therefore being filed only in PDF.

Sincerely,

Michael C. Rampe

<b>Utility Name</b>	Consumers Energy		
<b>Report Submission Date</b>	6/4/2020	<b>Reporting Time Frame</b>	November 1, 2019 - May 27, 2020 12:50 PM (reconnects) Arrearage data pulled thru 5/31/20

The information requested below should reflect data from November 1, 2019 to current.

**1. An account of efforts made to determine which occupied residences within the utility's service territory do not have natural gas and/or electric service.**

Please enter account in the space provided below. If needed, attach additional documents with this form.

In response to this MPSC order, Consumers Energy's Data Analytics department pulled a list of all customers who met the following criteria since November 1, 2019:

- 1) Were disconnected for non-payment
- 2) Services are still disconnected

The following outlines the efforts we have made to determine if the customer's premise is still occupied and to reconnect service whenever possible.

Our first step is to complete live calls by conducted by our CSRs. The purpose of these calls is to determine if the premise is occupied and if so, reconnect service either remotely (electric) or schedule a turn on (gas). Two phone attempts will be made to speak to a live person or to leave a voicemail. Customers were broken down into three categories for Electric Only, Combination, and Gas Only. Please see the attached one-pager for estimated timeline of outreach. Any customers we are unable to contact after two warm call attempts will move on to the next phase.

Automated Phone Calls and Email. Three total attempts will be made in this phase including two automated calls and one email, if available. The objective of these contacts is to prompt the customer to contact us to verify the premise is occupied and have their services restored.

Drive-By Inspection. Any customers who remain disconnected after the above outreach efforts will have a drive-by inspection performed to identify if the premise appears vacant.

Mailed Letter. If the premise does appear to be vacant. No further action will be taken. However, if the premise appears to be occupied during the drive-by inspection, those customers will be sent a letter as our final attempt to reach them.

**2. The number of occupied residences within the utility's service territory that do not have natural gas and/or electric service as a result of a shutoff due to non-payment.**

		Electric		Natural Gas		Combination	
		Confirmed Occupied	Not Confirmed	Confirmed Occupied	Not Confirmed	Confirmed Occupied	Not Confirmed

**4. What actions the utility has taken to reconnect natural gas and/or electric service for occupied residences, particularly those involving low-income or elderly individuals, or individuals impacted by the COVID-19 pandemic.**

Please explain actions in the space provided below. If needed, attach additional documents with this form.

In addition to our efforts described in Question 1, Consumers Energy is also taking the following actions to reconnect customers' services:

- Waiving reconnect fees and deposits for customers who have been impacted by COVID-19
- Removing late payment charges (LPCs) for impacted customers
- Encouraging any customer who contacts us due to an inability to pay to also work with the state on potentially receiving other benefits, such as State Emergency Relief (SER), during this hardship
- If customers call us and are disconnected, we will enroll them into a payment plan and turn their service back on with no down payment or fees
- On March 20th, 2020, we held our first COVID-19 agency update meeting in which we informed our agency partners that any disconnected customer they referred to us would be enrolled in a payment plan and reconnected with no fees, late payment charges, or down payment.
- Other outreach efforts to disconnected customers include social media posts and website updates

Please note that no attempts were made to verify occupancy or reconnect services for those customers who are currently disconnected as a result of unauthorized usage or safety issues.
