In the matter of the application of	)	
CONSUMERS ENERGY COMPANY	)	
for a financing order approving the	)	Case No. U-17473
securitization of qualified costs.	)	
_____	)	

At the July 23, 2020 meeting of the Michigan Public Service Commission in Lansing,
Michigan.

PRESENT: Hon. Sally A. Talberg, Chairman
Hon. Daniel C. Scripps, Commissioner
Hon. Tremaine L. Phillips, Commissioner

ORDER

In its December 6, 2013 order in this docket (December 6 order), the Commission authorized Consumers Energy Company (Consumers) to securitize up to \$389.6 million of qualified costs pursuant to the issuance of securitization bonds related to the expected costs of early retirement and demolition of BC Cobb units 1-5, Weadock units 7-8, and Whiting units 1-3.¹ Among other issues addressed by the order, the Commission concluded that there must be periodic true-ups of the securitization charges to ensure that the amounts collected are sufficient to service the securitization bonds. The Commission stated that “[t]rue-ups of the securitization charges shall be

¹ Consumers filed its application seeking a financing order on September 9, 2013, pursuant to the Customer Choice and Electric Reliability Act, 2000 PA 141; the Michigan Administrative Procedures Act, 1969 PA 306; and 1939 PA 3 that, among other things, permit certain utilities the option of reducing costs through the issuance of securitization bonds. *See*, MCL 460.10 *et seq.*, MCL 24.201 *et seq.*, and MCL 460.1 *et seq.*

conducted periodically, in accordance with the schedule and the methodology approved in this order. Midyear true-up results may be implemented immediately for any mid-year true-up that is uncontested.” December 6 order, p. 64, ¶ H, approving Rule C9.2 of Consumers’ electric rate tariff book (as of October 16, 2017, Rule C9.2 is referenced as Rule C9.1 in Consumers’ electric rate tariff book).

As stated in the December 6 order, the 4 coincident peak (CP) 50/25/25 allocator, as calculated in that proceeding, shall determine each customer class’ annual responsibility for the total revenue requirement of the securitization.² Accordingly, in the event that sales attributable to a particular customer class decrease to zero, this directive necessarily means that Consumers will recalculate the allocator using the 4CP 50/25/25 methodology for future true-ups to ensure that the company remains capable of collecting the required revenues sufficient to timely meet the special purpose entity’s bond payment obligation. *See*, December 6 order, p. 62, ¶ D.

On June 12, 2020, Consumers filed its annual routine true-up adjustment report to reflect new securitization surcharges for the period August 2020 through July 2021. The proposed surcharges are set forth on page 2 of Attachment A of Consumers’ June 12, 2020 application (attached to this order as Exhibit A).

The Commission Staff (Staff) reviewed the proposed adjustments contained within the application and concluded that the adjustments are routine, the calculations are accurate, and

² The December 6 order, pp. 42-43, refers to “allocation of securitization costs to each rate class based on the most recent Commission approved production allocation (currently 4CP 50/25/25), and then spread to customers within a class based on a uniform kWh [kilowatt-hour] surcharge.” The most recently approved production allocation as of December 6, 2013, is contained in the June 7, 2012 order in Case No. U-16794, pp. 106-108. As discussed in that order, the 4CP 50/25/25 allocation method consists of a calculation using a formula of 50% weighting of coincident peaks occurring from June through September, 25% weighting of on-peak use, and 25% weighting of total energy use.

the proposed adjustments conform to the method approved by the Commission.

After considering Consumers' filing and the Staff's review, the Commission agrees that the proposed adjustments in the application are routine, the calculations are accurate, and the proposed adjustments conform to the approved method. Consumers is therefore authorized to implement the adjustments in its filing effective for bills rendered on and after the August 2020 billing month.

THEREFORE, IT IS ORDERED that:

A. For bills rendered on and after the August 2020 billing month, Consumers Energy Company shall implement the new securitization charges set forth in Attachment C of its June 12, 2020 application, attached to this order as Exhibit B.

B. Prior to the August 2020 billing month, Consumers Energy Company shall file with the Commission a tariff sheet substantially similar to that set forth in Exhibit B.

The Commission reserves jurisdiction and may issue further orders as necessary.

Any party desiring to appeal this order must do so in the appropriate court within 30 days after issuance and notice of this order, pursuant to MCL 462.26. To comply with the Michigan Rules of Court's requirement to notify the Commission of an appeal, appellants shall send required notices to both the Commission's Executive Secretary and to the Commission's Legal Counsel.

Electronic notifications should be sent to the Executive Secretary at mpscedockets@michigan.gov and to the Michigan Department of the Attorney General - Public Service Division at pungpl@michigan.gov. In lieu of electronic submissions, paper copies of such notifications may be sent to the Executive Secretary and the Attorney General - Public Service Division at 7109 W. Saginaw Hwy., Lansing, MI 48917.

MICHIGAN PUBLIC SERVICE COMMISSION

Sally A. Talberg, Chairman

Daniel C. Scripps, Commissioner

Tremaine L. Phillips, Commissioner

By its action of July 23, 2020.

POWER PLANT SECURITIZATION CHARGE

The actual Power Plant Securitization Charge is authorized pursuant to Rule C9.1, Power Plant Securitization Charges, Initial Implementation and True-up Methodology. The Power Plant Securitization Charge is billed to all full service customers, shown in the rate schedules identified below, based upon usage. This charge shall be shown separately on the customer's bill.

The actual Power Plant Securitization Charge applied to customers' bills is as follows:

<u>Rate Schedule</u>	<u>Power Plant Securitization Charge (Case No. U-17473) Effective beginning with the August 2020 Billing Month</u>
Rate RSP	\$ 0.001244 /kWh
Rate RS	0.001244 /kWh
Rate RDP	0.001244 /kWh
Rate RDPR	0.001244 /kWh
Rate REV-1	0.001244 /kWh
Rate REV-2	0.001244 /kWh
