

Executive Secretary  
Michigan Public Service Commission  
7109 West Saginaw Highway  
Lansing, MI 48917

*RE: Case U-20763*

August 11, 2020

Dear Michigan Regulators,

The Great Lakes Michigan Jobs coalition and its member organizations in late July made available to individuals across the state the opportunity to sign an online petition or otherwise offer public comment in support of the Great Lakes Tunnel project and related permitting applications (*Re: Case U-20763*).

Please find below a copy of the petition language and the names, hometowns and more for the 1,300 men and women who personally and individually asked supportive comment be relayed in their names.

Sincerely,

Great Lakes Michigan Jobs

*(continued on next page)*

August 11, 2020

Dear Michigan Regulators,

(Re: Case U-20763)

Michigan needs the Great Lakes Tunnel and **I support Enbridge's permit application** to build it . The Great Lakes Tunnel is critical because:

- The Great Lakes Tunnel reduces the risk of a spill in the Straits of Mackinac to “virtually zero” according to a State of Michigan study.
- The Tunnel will avoid impacts to any species within the Straits as it will be located deep below the lakebed.
- The energy from Line 5 is essential to our economy and its recovery, especially during the COVID-19 pandemic.
- The Tunnel will support our economy both during and long after construction.
- The project will protect the Great Lakes, while creating jobs for hardworking Michiganders and preserve and protect our energy future.
- Michigan residents depend on the energy from Line 5 every day!
- The Tunnel will make an already safe pipeline safer, and keep energy affordable when it matters most.

This is my public comment to the Michigan Public Service Commission.

Build the #GreatLakesTunnel.

Signed,
